THE ANGLO-AFGHAN WAR.

The Results of the Battle

LONDON Nov 24—The *Times* says that a private telegram received in London estimates the killed and wounded in the operations in Khyber pass at 400

A dispatch from Thull reports that the Khurum column has formed a great camp at Fort Kapiyanga The cavalry and a portion of the infantry have pushed forward eight miles further to Hazaraj ir The inhabitants of the valley are friendly and are bringing in supplies freely An advanced detachment of the third brigade moved forward to Ali Musjid until they found themselves confronted by successive lines of entrenchment At dusk when retiring in accordance with orders they were severely handled Major Birch who commanded and Lieutenant Fitzgerald were killed and a lieutenant and over twenty sepoys and four artillerymen wounded

A dispatch dated Jamrood Friday says The garrison of Ali Musjid has beheld precipitately leaving arms food 21 cannon, and 40 or 50 wounded A considerable number of prisoners have been taken and it is reported that the Afghan commander is among them Considerable firing was heard up the pass this (Friday) morning It is believed that the Afghans are not in a condition to make any further resistance

Another Fort Occupied.

LAHORE Nov 25—The British column advancing into Afghanistan by way of Quetta has occupied without resistance Sib due east of Dazar

LAHORE Nov 24—It is believed that the greater part of the garrison of Ali Musjid are taken prisoners The hill tribes intercepted 500 Afghan soldiers and deprived them of their arms and clothing

Russia and the Afghan Question.

BERLIN Nov 23—The *National Zeitung* says that Russia being satisfied that the Afghan war must result in British victory does not contemplate intervention or interference while hostilities last but intends to claim a voice in the settlement terms. It bases its claim upon the proposed rectification of the Indo Afghan frontier Russia will not consent to the annexation or destruction of Afghanistan nor to the permanent acquisition by England of the positions commanding the passes of the Balkh

Conflict in the Cabinet Council

MANCHESTER Nov 25—The *Guardian's* London correspondent telegraphs In the cabinet council yesterday was a scene of severe conflict between ministers that had taken places since the departure of Lord Derby from the ministry The issue of the Afghan ultimatum is believed to have been the result of a compromise for the purpose of conciliating the more pacific section of the cabinet That party to-day carried its object—the summoning of parliament Its chief members are pointed out by report as Northcote Chancellor of the Exchequer and Cross, home secretary, who also received considerable support from Lord Salisbury

English Differences on the Afghan Question

LONDON Nov 23—Lord Lawrence's Afghan committee have resolved to organize themselves on a permanent basis and publish a statement of their views.

Comments of the Times on the Afghan War

LONDON, Nov 21—The *Times* in its military article, says "Many reasons make it appear probable that the winter campaign will close with the occupation of the Doka, Kurum and Pishen valleys Winter is drawing near the cold is intense and fuel and forage in the mountainous districts scarce so for prudential reasons the Indian government will not care to entangle their armies too far in the hills at this season until their communications are more secure, and their commissariat and transport arrangements on a more approved footing The three columns as at present constituted are too weak for more extended operations in the direction of Jellalabad Ghazuni and Candahar Were Gen Maudes division massed at Jamrood, had Gen Roberts strong supports at Kohat and if Gen Primrose were echeloned between Sukur and Quettah we should be inclined to believe in the possibility of a further advance as it is from a military point of view, we doubt its practicability

BY ATLANTIC CABLE.

Gambetta's Crime.

PARIS Nov 23—A rumor is current that the president of the cabinet council will ask the chamber of deputies for consent to prosecute Gambetta for engaging in a duel with Delourton who being unseated may be prosecuted with such consent.

The War in Africa.

CAPE TOWN Nov 24—The recent fighting between the Ambeline and Amaswazee tribes was continued by Cetewayo the Zulu king with the object of embroiling the British The 88th regiment Connaught rangers have been ordered to the front and volunteers are to be placed on garrison duty

THE RESUMPTION PROGRAMME.

[BY TELEGRAPH]

NEW YORK, Nov 23—The Tribune's Washington correspondent thinks that from all that can be learned from every source it is believed the following will be the essential points in the resumption programme

First—United States notes will be redeemed at the New York sub-treasury in gold or silver coin at the option of the holder, without limitation as to amount

Second—Legal tender notes of special issues of large denominations will be delivered in place of gold certificates and there will be no further issue of gold certificates

Third—Holders of notes who prefer gold instead of silver will obtain gold, and the treasury will not force upon the holder of notes a kind of legal tender coin that is not desired

Fourth—That legal tenders even without enactment of any law affirmatively authorizing it, will be everywhere received for customs duties

Fifth—That silver dollars will be exchanged for legal tenders or national bank notes in multiples of $1,000 at any sub treasury or national bank which is a United States depository the expense of transportation to be paid by the mint This is the plan which was inaugurated in September but was so suddenly discontinued on the ground that there was no authority of law to exchange silver for legal tender notes until after January 1 1879

Sixth—That perhaps arrangements will be made at sub treasuries other than at New York to redeem legal tender notes in coin within ordinary limits and as the interests of the place demand but not in large sums

U. S Notes and Coin to be an Exact Equivalent in Government Transactions.

WASHINGTON, Nov 23—The secretary of the treasury in reply to the Baltimore delegation summed up as follows My general answer therefore, is that the United States will maintain notes at par in coin in all parts of the United States by the redemption of such notes as are presented to the assistant treasurer at New York and by the receipt of the United States for customs duties and bonds I think this can be done without change of law The treasurer will treat U S notes and coin as an exact equivalent in all transactions with the government, and then business everywhere in the United States will adapt itself to the same standard

An Interview with Sherman.

A committee of the associated banks of Baltimore appointed to consider and report upon the action expedient by the Baltimore banks expressing their sympathy with co operation in resumption by the government of specie payment on the 1st of January had an interview to-day with the secretary of the treasury and submitted a series of questions The chairman said the questions were suggested in consequence of the law providing that resumption shall take place in New York The secretary in his reply, said it would seem that if we secure absolute convertibility of U S notes into coin at the chief commercial city we practically secure the same convertibility at every other place in the United States It is true that actual redemption is confined by law to the office of the assistant treasurer at New York This is a wise provision for it would be inexpedient to scatter redemption funds so that it would not be available Redemption in New York the chief commercial city of the country establishes the quality of U S notes with coin, and this is the main thing and carries with it their equality in all parts of the United States The difficulties suggested by Baltimore banks can be met by either of several expedients

First—This department can now by express provision of law ... or exchange ... for greenbacks This has been done for years at Boston Baltimore Chicago and other leading ports at the same premium ... as the market rate at New York It is could be continued after January 1st when at New York the rate will be par and therefore the same ... there

Second—U S notes being then at par with coin can, I think under existing law be received for customs duties and this is the only purpose for which coin is required by law to be paid to government by a citizen and its purpose for which it is equally desired If there is any doubt upon this point, congress may expressly authorize it

Third—If U S notes are taken for duties in New York they must be taken for duties in every part of the United States otherwise an unconstitutional preference would be made in favor of one port over other ports in the United States

Fourth—After resumption U S note must be held and maintained at par for all purposes in all parts of the United States by receipt of United States note for both customs duties and bonds

I think this can be done without change of law but as to this congress must be the judge The treasury will treat United States notes and coin as an exact equivalent in all transactions with the government and then all business everywhere in the United States will adapt itself to the same standard Having stated this much I do not think that I ought to go further and perhaps in my desire to be frank with you I may have broached questions that should await the opening of congress

Democrats and the Currency Question

CHICAGO Nov —A *Times* Washington special says that southern and western Democrats who have arrived here generally favor a platform for the Democratic party for 1880 having the following as prominent planks

First—Retirement of the national bank notes and the substitution therefor of U S treasury notes

Second—Full remonetization and free coinage of silver dollars

Third—Payment of the bonds in strict accordance with the letter of the law under which they were authorized to be issued

It is believed by soft and silver money men that these propositions will secure the united support of all who are opposed to the continued ascendency of the Republican party There is but one sentiment among the few Democrats who have arrived here in reference to fiat or irredeemable currency and that is one of unqualified opposition to this feature in the platform of the national party Silver men assert that they are for a double standard, but if a single standard is insisted upon that the standard must be silver The opinion of silver men is that silver and U S treasury notes will furnish a better currency for the people than gold government paper and bank note

NOVA SCOTIA

The Vice-regal Reception Programme—A Storm on the Atlantic

CHICAGO, Nov 25—A *Times* Halifax special of last night says that storm signals are hoisted at all marine stations A strong gale is rising from the southeast and dirty weather prevails at sea Considerable anxiety is felt lest the arrival of the vice regal party may be delayed thereby At daybreak to-morrow the North American squadron leaves port to meet the *Sarmatian* which has instructions to rendezvous at a certain point until the fleet is met As soon as the ship is overhauled every gun will be fired so as to be heard at Sambro, about 10 miles to the south of Halifax On hearing this signal a telegram will be sent to Halifax so that every one may be prepared for the arrival of the princess and her husband On getting to port the war ships will moor at their customary places, and the *Sarmatian* will anchor directly off the front landing place Twenty four hours will be allowed her royal highness and spouse to recover from the effects of their journey, and for the latter to prepare his replies to the innumerable addresses which await him

Later—It is blowing a perfect hurricane at sea and there is a fierce rain storm on and Capt Darcy Irwin of the *Bellerophon* has just informed the *Times* representative that owing to the prevalence of fogs and the general break up of the weather the ironclads will not go further than the lighthouse, three miles from the city Admiral Inglefield is afraid of risking the safety of any vessels

The Vice Regal Party at Halifax.

HALIFAX Nov 23—The *Sarmatian* arrived in the harbor at 9 30 this evening Was off the harbor at 6 30 and detained by fog She had heavy weather throughout the voyage on the 18th the seas breaking over her fore and aft The whole fleet of naval vessels and other steamers that left this morning to receive the *Sarmatian* returned to port, the weather being so thick it was deemed useless to remain outside

HALIFAX, Nov 24—This evening there is a prospect for good weather for the grand reception to-morrow Gen McDougall administrator of the government, and Vice Admiral Inglefield, visited Lorne and the Princess Louise this morning on board the *Sarmatian* down the harbor The Marquis and Princess left the *Sarmatian* at one o'clock in a steam launch and went on board H M S *Black Prince* where they lunched with the Duke of Edinburgh After lunch the Marquis and Princess Louise landed and drove to Maplewood the residence of Gen McDougall The city is decorated in a manner never before attempted by our citizens

THE NEXT CONTEST OUTLINED.

A dispatch from Washington gives information that the Democratic members of congress both from the north and south are proposing for 1880 a financial platform which will demand, "first, retirement of national bank notes and substitution therefor of greenbacks; second, full remonetization and free coinage of the silver dollar; third, payment of bonds in strict accord with the letter of the law under which they were authorized to be issued." On this scheme it is hoped to unite all who are opposed to the continued ascendency of the Republican party; that is to say, all who want to get the government in their own hands—which means all who are out and want to get in.

It strikingly illustrates the singular and incurable blindness of those who have the leadership of the Democratic party, that they are unable to perceive that every one of these propositions, as they interpret them, was directly presented in the recent elections, and emphatically repudiated by the people. The same blindness has been constantly exhibited in the leadership of that party for many years. It contended for slavery through many elections after all sagacious men saw that slavery was doomed; it staked its fortunes repeatedly in opposition to equal suffrage after the country had many times declared that the principle should prevail; it has split many times on the rock of inflation, beginning with 1868, and getting its last but still unheeded lesson in 1878; and now it proposes to make the great issue for 1880 a contest in behalf of unsound financial doctrines which the people have rejected as often as these doctrines have been directly presented. It still misunderstands the country as heretofore, and will not be content till it again drives its head against the solid wall of public resolve that no effort to inflate or debase the currency, unsettle business, impair the public credit, or help swindling schemes by tampering with currency values, shall succeed.

There are many Democrats who do not accept this programme of delusion and folly; but their counsels are overborne by the noisy class who are unable to learn anything, and who make a bold impudence and professions of party zeal stand for judgment and leadership. Hence the facility of the management for fatal blundering has become proverbial. So often has it been verified that the Democratic party may be trusted always at a critical time to commit some blunder that will defeat it, that the fact may almost be accepted as one of the most probable proofs of the doctrine of fatality, or of the mere spite and perverseness of malicious fortune, exhibiting itself in the darkening of men's judgments and the paralyzation of the general powers on which they must depend for rational conduct and success.

The politicians who propose to make the issue in 1880 on the propositions above outlined mistakenly imagine that there is a plausibility in the scheme which will carry it through. There is, indeed, a sort of plausibility in it, which, for that very reason, is fatal. Retirement of national bank notes might be well enough; but substitution therefor of an equal amount of greenbacks is a thing which, in the first place, congress has no power to do, and in the second place, if done, would result in depreciation of the whole value of greenbacks, and indefinitely postpone resumption. The present volume of greenbacks is all that can be maintained at par. Their slow appreciation to their present value is proof enough of this fact. But it will be said that the volume of paper currency would not be increased by withdrawing the bank notes and issuing greenbacks in equal amount, and therefore there could be no depreciation. The last part of this assumption is a mistake. The bank notes are redeemable in greenbacks, and follow their fluctuations. Hence the bank notes are no obstacle whatever to resumption. It is simply a question whether government shall be able to redeem its own notes, as the banks, whenever required, must redeem theirs. Government has at last, after great difficulty and long delay, demonstrated its ability to begin redemption of its notes on the 1st January next, the time designated by law. For years it has been banking up coin and otherwise preparing for that event. But should there now be a further issue of three hundred millions of these notes, who can suppose that government would be able to redeem? Down would go the value of the greenback, and up would go the rate of gold, in proportion to the amount of paper inflation. All this a majority of the people understand, if Democratic politicians do not.

Again, the silver question. Full remonetization of silver and free coinage of the silver dollar would simply banish gold and put the finances and business of the country on a silver basis. One dollar would be worth 83 cents, with prospect of further decline; and the paper currency, redeemable in silver, would drop, of course, to the silver level. The country is not ready to banish gold; hence this silver proposition will not be accepted.

The third proposition, namely, payment of bonds in strict accordance with the letter of the law under which they were authorized to be issued, sounds well; but it is perfectly known how inflationists and repudiators would interpret "the law under which they were issued." It has always been contended by them that the bonds were payable in greenbacks, as if government could pay one form of its debt by issuing it in another form. We could cite an Oregon Democratic platform which insists that fair interpretation of the law under which the bonds were issued would require repudiation of all in excess of the rate at which the bonds were first taken. This, it is calculated, would wipe out about half the public debt;—that is to say, as the debt is held by the people, the measure would be equivalent to sequestration of about one thousand millions of private property. But the scheme is not now put in this shape of bold villainy. It is now proposed with somewhat more plausibility, but with equal disregard of sound financial ideas and of public faith, to double, or nearly double the volume of greenbacks, which would cause their depreciation to perhaps fifty cents in the dollar, and then "pay the bonds in accord with the letter of the law under which they were issued,"—which being interpreted, means their payment in this inflated and debased paper currency. They who have usurped the management of the Democratic party and turned it away from its hard money policy and traditions may assure themselves that the people thoroughly understand all these schemes, tricks and propositions. Unless it is prepared to commit suicide in 1880, the Democratic party will at once renounce and eschew all these fallacies. They are the cognate follies of fiatism, and never can find acceptance with the country. If this policy be persisted in, elections of this year foretell those of 1880,—only in 1890 there will be added the make-weight of a solid south, to provoke by its antagonism a still louder opposing response from all the northern states.

According to the last census taken by the national authorities, there were 62,736 natives of China in the United States. Of these 48,823 were in California, 4,260 in Idaho, 3,326 in Oregon, 3,143 in Nevada, 1,943 in Montana, 445 in Utah, and 234 in Washington. California had 77 per cent., or a little more than three-fourths reported in the census. This enumeration was made in June, 1870. The *Alta*, after adding 58,835 who have come since the census, and deducting 15,000 for deaths, infers that there are now about 101,000 Chinese in the United States. This estimate is probably somewhat too high, because it takes no account of those who have returned to China, and the number of these is not inconsiderable.

It is ascertained by a New York journal that one million three hundred and fifty nine thousand dollars is the total public subscription to aid the yellow fever sufferers in the south. Of this amount $395,000 was contributed by and through New York city, and $39,000 came from foreign sources. From this total are excluded all private, religious and society subscriptions, and it embraces only the cash subscribed publicly and through the authorities of the various cities and the committees appointed by them.

It is sorrowful to hear of hurts not quite mortal and yet not medicinable;—and here is the land organ office at Roseburg still uttering its lamentations over the defeat of Senator Mitchell. Who was it falsely said that time was a healer? It might be of service to the grieved spirit to look in the dictionary of quotations for maxims of consolation and philosophy about fell sorrow's tooth, and things of that kind.

150 cords SOFT WOOD,
130,000 pounds OATS,
155,000 pounds HAY,
45,000 pounds STRAW.

Proposals for each class of the stores mentioned or for quantities less than the whole required, will be received.

The Government reserves the right to reject any or all proposals.

A preference will be given to articles of domestic production.

Blank proposals and circulars giving full instructions as to the manner of bidding, conditions to be observed by bidders, terms of contract and payment, will be furnished on application to this office or to the Acting Assistant Quartermaster, Camp Harney.

Bids must be accompanied by a bond for a sum one third the amount of the bid.

Envelopes containing proposals should be marked; "Proposals for Fuel and Forage at Camp Harney," and addressed to the undersigned, or the Post Quartermaster, Camp Harney.

CLOTHING.

CITY.

PRESENTATION.—Capt. James Carroll, of the steamship *Great Republic*, was presented with a pair of marine night glasses and a silver goblet on Saturday evening, by a number of the passengers. After the steamer got into the Columbia river a meeting was held by the passengers, and complimentary resolutions were passed in reference to the gallant conduct of Capt. Carroll during the passage from San Francisco. The voyage proved to be a long and stormy one, and during the time the captain was untiring in his efforts to add to the personal comfort of the passengers, and never for one moment deserted his post of duty. Desiring to manifest in some substantial manner their appreciation of the gallant and meritorious conduct of Capt. Carroll, a large number of the passengers determined to present that gentleman with a fitting testimonial. On Saturday evening about 150 passengers assembled on board the *Great Republic*. Capt. Cook, U. S. A., called the meeting to order, when a committee was appointed to wait on Capt. Carroll and invite him into the cabin. Mr. W. E. Turner, of Stanislaus Co., Cal., stepped forward and in a few appropriate words presented Capt. Carroll with the pair of marine glasses. Attached to the glasses were two solid gold shields. On one side was inscribed the following words: "Capt. James Carroll, commander steamship *Great Republic*." On the other shield the following: "Presented by the passengers of the steamer during the voyage from San Francisco to Portland, Nov. 21, 1878, as a memento of their high appreciation of his superior qualities as a master mariner." Capt. Carroll accepted the handsome gift and responded fittingly. He was about to resume his seat when Mr. Turner again stepped forward and in behalf of the lady passengers presented the captain with a solid silver goblet on which was inscribed: "Capt. Jas. Carroll, steamer *Great Republic*, from his lady passengers." The captain was quite overcome and could only express his thanks by looks. Soon champagne corks were flying promiscuously about the cabin, and the sparkling fluid was flowing freely. Some little time was spent in the most agreeable manner, when the crowd dispersed. The occasion was one which will long be held in pleasant remembrance by all who participated.

A HEAVY FALL.—Capt. Merriman of the bark *Belle of Oregon*, met with a terrible fall aboard his vessel about 5 o'clock Friday evening. The vessel is lying at Flanders' wharf loading with grain for Europe. One of the hatches had been left open, and Capt. Merriman in passing along stepped through and fell a distance of about 22 feet, striking on the bottom of the vessel. Fortunately, the captain struck on his hips and feet. In his descent his head came in violent contact with a sharp piece of timber, which cut a severe gash. Considering the distance he fell, and the weight of Capt. Merriman—about 200 lbs.—it seems remarkable that he was not killed outright. No bones were fractured. Dr. Jones was called and rendered the required services. Capt. Merriman is at present doing as well as could reasonably be expected.

MUSICAL SERVICES.—At the services to be held at Trinity church on Thanksgiving Day the following persons will compose the choir: Sopranos, Mrs. Eliza Corbett, Mrs. Withington, Miss Packard, Miss Stump; altos, Mrs. Kinross, Mrs. Parrish, Miss Test; tenors, Mr. Franklin, Mr. Withington, Mr. Van Beurden; bassos, Mr. Atkinson, Mr. Buchanan, Mr. Kinross; organist, F. Vinton; choir master, W. H. Kinross. The service will consist of: "Te Deum," by Offenbach; Offertoire, bass solo and chorus, "Immanuel;" Recessional, "Thanks be to God," from oratorio of the "Elijah." The responses to the Commandments will also be from the "Elijah." The processional will be "Jerusalem the Golden," besides the regular chants usual at morning service.

OUTRAGES ON INDIANS.—Says the *Telegram*: "Mr. S. H. Pershin, a deputy U. S. surveyor, who is well known here to be a reliable gentleman, reports from Umatilla, where he is now on duty, that a number of ruthless outrages have been committed near there recently upon Indians by white men. Several have been murdered in a most barbarous manner for no cause and under no pretext of justice, save the general prejudice against their race. If an Indian chances to get beyond the protection of the agency authorities, or beyond the boundaries of the agencies, he is almost certain to be shot down. No quarter is shown and no care is taken to distinguish between the good and the bad. It is certainly to be hoped that these outrages will be stopped by the authorities."

CLOTHES THIEF.—Saturday evening, shortly after dark, an old lady, who resides at the corner of Hall and First streets, observed a Chinaman in her yard taking clothes from the line. She started for the celestial, who escaped through the gate and started down the street. The old lady ran after the Chinaman at the top of her speed crying "Stop thief! stop thief!" The Chinaman ran down as far as Mill, and turning up that street was caught by Lee Backenstos, who turned him over to the police. He was taken to the police court, but released on depositing $60. His name is Wong Sam. The case will be investigated to-day.

THE LOCKS.—Says the *Inland Empire*: "Carpenters are erecting two dwelling houses on the Oregon side of the Upper Cascades, one for Mr. Ball, the contractor, and the other for Major Bolton, the U. S. engineer, who is to superintend the work. It is thought they will be completed in two years. Buildings are also being erected for the accommodation of some 200 workmen, who are to be employed on the locks and canal. On the completion of this work the trip to Portland by such boats as the *West* and *Thompson* will not exceed six hours duration."

PASSED AWAY.—Mrs. Lappeus, consort of the late W. W. Lappeus, who departed this life suddenly some weeks ago, died Friday evening at the residence of her son Mr. James H. Lappeus after a brief illness. Deceased was a very amiable and kind hearted old lady and greatly beloved by all who knew her. Yesterday the remains of the departed were laid to rest in Lone Fir Cemetery by the side of her aged companion who had preceded her only a few weeks to the shadowy realms of the unknown land.

DR. LINDSLEY'S LECTURE.—The last issue of the Corvallis *Gazette* says: "Rev. A. L. Lindsley, D. D., of Portland, delivered a lecture at the Presbyterian Church in this city, on last Sunday evening. Subject, "Put Yourself in his place, or the Art of Pleasing." The Doctor is a forcible and pleasant speaker, and the language used was fitly chosen, while the entire lecture exhibited the careful and thoughtful preparation of a ripe scholar and diligent student."

AT THE HOSPITAL.—M. P. Bull, Esq., formerly a resident of this city, and who for some years past has been living in Eastern Oregon, is now a patient at St. Vincent's Hospital. Mr. Bull is an attorney, and for some time was editor and proprietor of the Mountain *Sentinel*. His many friends will regret to learn of his illness and unite in the earnest hope that he may soon be restored to perfect health.

CHARITY.—On next Wednesday (the 27th) the ladies of the Relief Society, will send for the bags which have been distributed through the city for Thanksgiving offerings to the Children's Home, under their care. Should any be overlooked or not ready when called for, they can be left at the stores of Hacheny & Bano on First street, or Mr. Wadhams' on Front street.

TRIAL TRIP.—Capt. Kellogg's new steamer *Toledo*, which was built near the upper sawmill, made a trial trip Saturday. Everything worked admirably, and the trial was very satisfactory. This craft has a capacity of 200 tons. The *Toledo* will ply between Portland and points along the Cowlitz and Lewis rivers.

DISCHARGING FIREARMS.—A man named George Boyd was arrested yesterday on a charge of discharging firearms within the city limits. The case will be inquired into this afternoon.

DEATH OF WANG HO.—A young Chinaman named Wang Ho died in this city yesterday in the 24th year of his age. Wang Ho has been a member of the First Baptist church of this city for the past two years. He lived and died a most exemplary Christian. The funeral will take place to-day (Monday) from the rooms over the Young Men's Christian Association Hall, corner of Alder and First streets, at 2 o'clock P. M. Christian friends are invited to attend the funeral.

LADIES' FAIR.—A fair under the auspices of the ladies of the Catholic church, given for the purpose of assisting in the building of the new cathedral, will open to-night in Red Men's hall on First street, between Stark and Washington streets. A great number of useful and beautiful articles will be on exhibition during the week and will be raffled at the close of the fair.

LAST DAY.—Tax payers are reminded that to-day (Monday) is the last day on which school taxes can be paid without costs. All persons feeling an interest in such matters should heed this last call and just quietly drop it on Mr. D. W. Williams, school clerk, whose office is on Third street between Alder and Morrison.

THANKSGIVING BALL.—Willamette Tribe of the Improved Order of Red Men, will give a grand ball on the evening of Thanksgiving day. The affair is under the management of efficient committees and will undoubtedly be pleasant and successful.

LINE DOWN.—The line was down below Kalama last evening, and consequently nothing could be heard from the steamer *City of Chester*. This steamer sailed from San Francisco last Friday and is due here at any time.

TO BE COMPLETED.—The contract for the blasting of 1,400 yards of rock from the channel of Snake river, Pine Tree and Five Mile Rapids, will be completed, it is expected, by the end of December.

STAGE OF WATER.—The river on the 22d, was 6½ feet above extreme low water. With this stage of water there is a depth of 22 feet on Swan Island bar, and 24½ to 25 feet on St. Helens bar.

INSPECTING TOUR.—Col. G. L. Gillespie's corps of engineers, in charge of the river improvements, has been the past week on a tour of inspection as far as Pine Tree Rapids, Snake river.

U. S. CIRCUIT COURT.—Judge Deady will announce an opinion this morning in this court on the demurrer to the bill in the case of Nicholas vs. Murray and Hill.

GOSPEL MEETING.—A union mass meeting will be held at the Y. M. C. A. rooms to-night. Prof. R. K. Warren will lead. Go and take your friends with you.

ARRIVED.—The steamship *California* arrived at this port yesterday afternoon about 5 o'clock from Sitka and way ports.

AMUSEMENTS.

NEW MARKET THEATER.—"Davy Crockett" was repeated Saturday afternoon for the last time at matinee to an immense audience. Mr. Mayo in the title role gave a very fresh and charming impersonation of the rugged, but true and generous hearted backwoodsman. "Eleanor Vaughan," the young heiress, was personated by Miss Woodthorpe in a very vivacious and effective manner. The support was, as usual, excellent. Saturday evening "Man and Wife" was repeated for the last time. There was present a large house, and the performance in its entirety was even more interesting than on its first presentation. The character of "Geoffrey Delamayne, as interpreted by Mr. Mayo, was as fine a piece of artistic acting as Portlanders seldom have the pleasure of witnessing. "Geoffrey Delamayne," in Wilkie Collins' "Man and Wife," is just such a character as Dickens has portrayed "Bill Sykes," in "Oliver Twist," with the exception that the former is educated and the latter not. One is a low, depraved, vicious brute, and the other a smooth, polished and heartless villain who scruples at nothing. Those who have seen Berne and Mayo in these respective characters can very readily perceive the points of difference and similarity. Miss Walters as "Anne Sylvester" gave a remarkably fine rendition of the character. The support was prompt and efficient.

MAYO AS "BADGER."—This evening Dion Boucicault's great drama "Streets of New York," will be presented at the theater. Of course Mr. Mayo will appear in his wonderful creation of "Badger." In this character Mr. Mayo stands without a peer on the American stage. The play is not unfamiliar to this public having frequently been performed in this city. As a literary work it possesses little merit; as an acting play, it is always welcomed by the galleries and fills the treasury. The original drama from which this play is adapted, is called the "Poor of Paris," and was first produced at Wallack's old theater in New York, ten years ago, under the title of "The Poor of New York." In 1864 Boucicault revised it under the title of "The Streets of London," and finally it was localized by Mrs. Wood, and produced in New York under its present name. Whatever character Mr. Mayo attempts to personate he strives to make perfection, and having thoroughly conceived and grasped the innate character of his author's creation, he dresses and presents it with a skill and art that make the imaginary being a living, actual person, moved and actuated by human impulses. He is always natural, always consistent, and being a perfect master of nearly all the English dialects, he is eminently fitted for such characters as typify the life of any section of our country.

The "Streets of New York" is now Mr. Mayo's property, as he has purchased the property right from Mr. Boucicault, and there is no one who succeeds so ably as he in portraying the dash, reckless bravery, good nature and adventuresome spirit of the restless bank clerk, the seedy miner, the New York fireman and the respectable policeman. He will be supported this evening by the full stock company and all needed adjuncts of scenery and property. Several very handsome scenes have been painted by Porter expressly for this piece.

THE COURTS.

PORTLAND, Nov. 23, 1878.
STATE CIRCUIT COURT—BELLINGER, J.

The following arrests were made up to a late hour last evening: Edward Neil, James Leach, Robert Hunter, Thos. Conley, Pat Quigley and M. Murdy.

JEWELRY OPENING.

Mr J. Van Beurden has recently returned from Paris, where he went as commissioner from Oregon to the exposition, bringing with him a magnificent stock of the newest designs in plain and fancy jewelry and a line of watches superior to any in this market. Mr Van Beurden has opened a suit of show rooms in Church's building, No. 162 First street, up-stairs, and will be happy to have the public inspect his stock and learn his prices.

If you think of furnishing a house with a part or entire outfit of furniture, and do not wish to pay too much for the articles necessary, go to Edwards & Birmingham, Centennial block. They have what you want and the prices are the lowest.

FIRE MATTERS.

Fire matters now are beginning to excite some little interest as they always do just preceding an annual election, especially if the contest is to be a hot one as this is expected to be. The past week has brought forth at last a candidate in opposition to Morgan in the person of Mr. Cummings of No. 2, who is their present foreman, and a man adapted in every way for the position; but as the old feeling of custom prevails in this as well as in all other volunteer departments, it is rather late for his friends to advocate his election, as Morgan's success is a foregone conclusion. For 1st assistant there are at present three candidates, Joyce of No 5, Cushing of No 3, and Harrington of H. & L. No. 1. They are all old firemen and among the boys Harrington seems to have the best of it, and no doubt will make a very hot fight for the rest of them. The probabilities are that on next Monday a week hence that the officers will stand as follows: Morgan, chief; Harrington, 1st assistant, and Cushing 2d assistant, making an assistant and 2d assistant who could render valuable service to the chief and the department in general.

That engine has arrived for No 5, and will have a trial test before the chief engineer and the committee on fire and water on Monday at 2 P. M.

No. 4's boys went in a body last Thursday night to the house of their 2d assistant, John Slavich, and wine and had a very enjoyable time.

No. 5's boys are in a quandary, and one that may lead to some unpleasant circumstances. At a regular meeting held some time ago a majority of the members attempted to make an amendment to the constitution that the engineer should be the choice of the company and not of the foreman, but not having the necessary two-thirds vote lost it. Failing in this they passed a resolution, which only required a majority vote, that the company appoint an engineer, and having won on that point appointed Frank Reed, totally ignoring their foreman, who alone has the power to appoint such person. Mr. Ham has now appointed Henry McMullen, who had charge of No. 4 for a long time, and to them we would say, boys, you are wrong. Your foreman and no one else has the right to appoint a man to that position, and if you don't like the man he puts there you have to bide your time and at your elect on in February put in a man as foreman who will act in concert with you and thus save considerable time and trouble besides engendering a feeling of hatred among you that it will take years to wipe out.

The Owls have the heater in position and experience no difficulty in keeping up from 15 to 20 pounds of steam all along.

On last Tuesday night the alarm was sounded from box 4, corner Tenth and Morrison streets, and the department responded with their usual activity. No. 1 was the first to get there with their carriage, their engine being out of service, and were informed that the fire was on the corner of Tenth and Madison, whither they proceeded and attached their hose to a plug on the corner of Tenth and Main and passed first and only water. After they had tested their hose Mr. P. Selling invited the boys over to his house and a sumptuous repast was spread out for them to which they did ample justice.

The extremely small size of the new engine for Tiger engine No. 5 was the subject of conversation among the firemen all day yesterday, but when Billy was warming her up she was large enough to throw Wood, McKean and Evans of No. 1 down, and if Everson had not shut off suddenly might have done some serious damage.

Chief Engineer Morgan talks of districting No 5, but he may have some serious trouble keeping the boys in when the big bell taps, as they will be very anxious to get down town to "show off" their fine machine. The best thing he can do is to let them come down, and after they travel the hill a few times he won't have the least trouble in districting them.

Everson, of No 1, has placed the new engine in position, making the fourth he has put up. They are of the following makes: Linn No. 2, of Albany (Clapp & Jones;) Rescue No. 2, of Astoria, (Silsby;) Willamette No. 1. Amoskeag, put up and run for five years; Tiger No. 5, Amoskeag and was engineer of No. 4 for one year; a pretty good record for a webfoot.

The streets of our city are in a terrible condition to haul an engine through, as was demonstrated the other night with No. 3, No. 4, and the Hook & Ladder all stuck within a stone's throw of each other on Morrison street.

In regard to the forthcoming celebration on Thanksgiving day by No. 1 and No. 5, there are serious fears that it will not be as grand an affair as was anticipated. As to the house the committee have been altogether too lenient with the contractor, and now it is a question that seriously interests the boys whether they will have it or not for Thanksgiving. The contract calls for the house to be finished by the 15th of September and as two months over that time have passed the boys are hostile to Mr. Porter and avow that he has purposely kept it back so that the committee will have to accept it or not.

At last the long expected engine for Tiger No. 5 has arrived and is in charge of Mr. W. T. Everson, the agent of the Manchester Locomotive Works for Oregon and Washington Territory until Monday next at 2 P. M., when she is to be turned over to the chief engineer and committee on fire and water. She is a fourth-class Amoskeag, built by the Manchester Locomotive Works of Manchester, New Hamp. Has an upright, tubular boiler five feet high and 28¼ inches diameter, with about 240 flues. She is supplied with one cylinder 6⅞ inches in diameter and 8 inch stroke, and has a sectional area of water piston of 14 square inches, equal to a capacity of 300 gallons per minute. Her pump is 4¼ inches in diameter, and 8-inch stroke. Her length over all is 21 feet and extreme height 8 feet 4 inches, and weighs equipped about 2800 pounds. She is of a make that has a reputation second to none in the principal cities of the United States, and although lighter than the general run is adapted for hard fire service and will prove that she is all that is claimed for her, and her builders claim that everything equal the Amoskeag can beat anything manufactured every time. She is especially adapted to Portland from her light weight, and consequently easily propelled about our city with its steep grades, and as the days have passed for the "big" engines it would be a wise idea for our city fathers to procure several more like her and do away with the present heavy ones, as the loss of time in reaching a fire with them may some day cost double their price.

No. 5's boys, at a special meeting last evening, resolved to co-operate with No. 1 in making both celebrations on Thanksgiving an event long to be remembered by those who are fortunate enough to secure invitations.

FIFTY DOLLARS REWARD.

I will pay the above reward for the conviction of any party or parties who may sell dried fruits purporting to be dried by the Plummer Process that are not so dried. It is the duty of every merchant and citizen to see to it that our fruits are kept up to the proper standard. It is well known that fruits properly cured by my process have no equal in the world, and I propose to protect them against all bogus dried fruits.

ABOUT THE SILVER PRUNES.

TO THE EDITOR OF THE OREGONIAN:

In the *Willamette Farmer* I have seen an advertisement of the Railroad Nursery in which advertisement appears the following: "Also, a few [illegible] trees of the new Silver Prune. Read what the best judges of fruit say about the Silver Prune:

STATE FAIR GROUND,
SALEM, October 11th, 1878.

We, the undersigned, hereby testify that we have examined the fruit of the Silver Prune in a green state, also dried by the Plummer process. We have also examined thoroughly the Coe's Golden Drop Plum and we find the Silver Prune far superior to it in every respect and entirely a new variety, and we recommend it to the fruit growers of Oregon as a superior prune, both in a green and dry state. Alfred B. Culver, Marshfield, Coos county, Oregon; W. S. Plummer, fruit dryer; A. P. Robertson, Wheatland, Yamhill county, Oregon; Wm Pearcy, professional pruner and orchardist, Salem, Ogn. Send for catalogue and price list. H. W. Prettyman, proprietor of Railroad Nursery, East Portland, Ogn."

And now as there is a question among the most experienced pomologists of our great fruit raising state, as to whether there is any such new variety of prune as the Silver Prune, it seems but fair to ask an investigation. We know in this age of competition men in their various avocations are striving to place their commodities upon the market and outstrip their competitors. We will concede that each individual has the unlimited right to [illegible] and take such honorable advantage as will [illegible] to him all the trade in his line that he may receive either by producing a superior commodity or by a fair advertisement. And perhaps in many branches a little coloring may be indulged in without any violation of any moral principle, or injury to the public generally; but an imposition in selling fruit trees, when we reflect that it requires years to discover the fraud, is one that should not be indulged in by any honorable person. And whenever there appears any cause to suspect an imposition, it is for the best interests of a whole community, for the reputation of the state, for the future prospects of our country, as well as justice to those men (and we have many among us) who have devoted their lives, their energy and their money in carefully studying the various kinds of fruit that do well in our soil and climate and have given Oregon the world wide reputation of being the best fruit country on the continent of America.

This advertisement claims that the "Silver Prune so named therein is a new variety and is not the well known fruit that has been cultivated for more than a half century known as 'Coe's Golden Drop.'"

And this advertisement also says: "Read what the best judges of fruit say about the Silver Prune." Now, will Mr. Prettyman please come to the front and inform the public: First, how, and by whom and where, and under what circumstances, the Silver Prune came into existence?

Second, if it is not 'Coe's Golden Drop,' state the difference between the two?

And third, who are those best "judges of fruit?" what experience have they had in fruit raising? how many books and what have they read on pomology?

All these propositions the public have a right to have answered before they accept the statement or invest their time, labor and money in planting and cultivating an orchard.

And in conclusion I will say that if Mr. P. is honest in his apparent belief that this is a new fruit, for his own reputation he will come to the front. But if he has some scent to suspect well knows that this "new fruit" is identical with "Coe's Golden Drop," and if he is simply trying to palm it off upon a generous, confiding public for the sake of "filthy lucre" he will perhaps treat this communication with silent contempt, and go on in the even tenor of his ways, rejoicing.

THERE IS NO TIME to be lost when a cough attacks one, in adopting means of prevention against consumption and bronchitis. A cough may, with perfect truth, be termed the incipient stage of those destructive maladies and it is the hight of folly to disregard it. If neglected it will assuredly culminate in some dangerous pulmonary affection but if DR. WM HALL'S BALSAM FOR THE LUNGS be used, the complaint is speedily vanquished and all danger averted. There is no pulmonic comparable to this specific. Sold by Druggists. Beware of imitations. Ask for Hall's Balsam for the Lungs and take no other.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world it is entirely your own fault, and there is only one excuse for you—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of head, nervous prostration, low spirits, etc. Its sales now reach every town on the Western Continent and not a Druggist but will tell you of its wonderful cures. You can buy a sample bottle for ten cents. Three doses will relieve you.

Dr. La Mar's Seminal Pills cure all cases of Seminal Weakness, Loss of Vigor, Nocturnal Emissions, Impotency, Nervous and Physical Debility, and all that class of complaints arising from Excess, Indiscretion or Abuse. MODERN MIRACLES.

Dr. C. M. Wood, the well-known healer, returns to his practice in Portland, after a rest of six months. His great cures of men, women and children, some of which were published in THE DAILY and WEEKLY OREGONIAN during last winter, has brought hundreds of letters from anxious sufferers, desiring information as to the permanency of his cures. In order to satisfy those desiring such information, he will publish from time to time through THE OREGONIAN the original certificates of cures, and when possible, to communicate with such patients a certificate of their present condition. $1,000 forfeited if every cure he has ever published was not genuine as stated.

Dr Wood

Will heal the sick of chronic diseases, at corner of Washington and Front street, Portland. All curable diseases successfully treated when every other method fails. Dr Wood cures by animal magnetism, and can point to the most wonderful cures ever performed by this method. *No medicine, no surgical instruments*—no pain whatever.

Cure of Dyspepsia and Chronic Diarrhea.

For the benefit of suffering humanity I deem it my imperative duty to make known to the public what has been done for me by Dr C. M. Wood. Having been subject to dyspepsia for some 12 or 14 years, and continuing to grow worse until about four months ago, when it ran into chronic diarrhea and assumed a very dangerous condition—so much so that I found I would be compelled to stop my duties or find some relief, and having seen one of Dr. Wood's circulars, I concluded to consult him and finally to be treated by him for one month, the result of which I give in a few words; I feel that I am as sound as I ever have been, and that so far as my disease is concerned, I am perfectly cured.
JOHN R. CURRY,

Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER—KIDNEYS.
Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use; for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and is frankly acknowledged to be the only cure for many chronic complaints of a complicated nature.

CATARRH.
The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial, and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism, etc. All who use it, leading druggists and physicians gladly attest its great sterling worth. Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful three times daily, making its cost much less than other medicines. Make like tea or put in wine, etc.; pleasant to take when nicely sweetened. It is nature's life-bearing balsam—its success assured in advance in all cases. Ask for it and take no drugs or disguised mercury. Six pkts. $5 00

REPAIRING

Promptly attended to by experienced workmen,

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Peculiar Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR BRENAN

has made a specialty in the treatment of the following diseases, Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs, including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only, for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering, and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand and the patient need not fear the result,

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR PAUL M BRENAN, the *Medical Lecturer* and read his sign on his door.
